## DEPARTMENT OF ENERGY

### Environmental Management Site Specific Advisory Board, Nevada Test Site; Meeting

**AGENCY:** Department of Energy.

**ACTION:** Notice of open meeting.

**SUMMARY:** Pursuant to the provisions of the Federal Advisory Committee Act (Public Law 92-463, 86 Stat. 770) notice is hereby given of the following Advisory Committee meeting: Environmental Management Site Specific Advisory Board (EM SSAB), Nevada Test Site.

**DATE AND TIME:** Wednesday, April 12, 1995: 5:30 p.m.-10 p.m.

**ADDRESSES:** Holiday Inn Crowne Plaza, 4255 South Paradise Road, Las Vegas, Nevada.

**FOR FURTHER INFORMATION CONTACT:** Kevin Rohrer, U.S. DOE, Nevada Operations Office, AMEM, P.O. Box 98518, Las Vegas, NV 89193-8518, ph. 702-295-0197, fax 702-295-1810.

**SUPPLEMENTARY INFORMATION:** Purpose of the Committee: The EM SSAB provides input and recommendations to the Department of Energy on Environmental Management strategic decisions that impact future use, risk management, economic development, and budget prioritization activities.

Tentative Agenda:

Wednesday, April 12, 1995

5:30 p.m.—Call to Order, Review of Agenda, Minutes Acceptance, Financial Report, Correspondence, Reports from Committees, Delegates and Representatives, Unfinished Business, New Business, Evaluation of Board and Environmental Restoration and Waste, Management Programs, Announcements  
10 p.m. Adjournment.

If needed, time will be allotted after public comments for old business, new

business, items added to the agenda, and administrative details.

A final agenda will be available at the meeting Wednesday, April 12, 1995.

**Public Participation:** The meeting is open to the public. Written statements may be filed with the Committee either before or after the meeting. Individuals who wish to make oral statements pertaining to agenda items should contact Kevin Rohrer's office at the address or telephone number listed above. Requests must be received 5 days prior to the meeting and reasonable provision will be made to include the presentation in the agenda. The Designated Federal Official is empowered to conduct the meeting in a fashion that will facilitate the orderly conduct of business. Each individual wishing to make public comment will be provided a maximum of 5 minutes to present their comments. This notice is being published less than 15 days before the date of the meeting due to programmatic issues that had to be resolved prior to publication.

**Minutes:** The minutes of this meeting will be available for public review and copying at the Freedom of Information Public Reading Room, 1E-190, Forrestal Building, 1000 Independence Avenue, SW, Washington, DC 20585 between 9 a.m. and 4 p.m., Monday-Friday, except Federal holidays.

Issued at Washington, DC on March 29, 1995.

**Rachel Murphy Samuel,**

*Acting Deputy Advisory Committee Management Officer.*

## Bonneville Power Administration

### Notice of Intent to Prepare an Environmental Impact Statement, Notice of Floodplain and Wetlands Involvement and Notice of Scoping Meetings for the Hood River Fisheries Restoration Project

**AGENCY:** Bonneville Power Administration (BPA), Department of Energy (DOE).

**ACTION:** Notice of intent to prepare an environmental impact statement (EIS), and conduct scoping meetings and notice of floodplain and wetlands involvement.

**SUMMARY:** Today's notice announces BPA's intention to prepare an EIS on actions to protect and improve anadromous salmonid populations in the Hood River Basin. These actions are proposed to mitigate the losses of fish and wildlife associated with the

construction and operation of Federal hydro-power facilities in the Columbia River Basin. These actions are expected to protect and improve the status of native stocks of salmonids in the Hood River and Columbia River Basin, establish a viable spring chinook population in the Hood River Basin, and protect, to the extent practicable, other aquatic and terrestrial resources in the Hood River Basin, consistent with tribal treaty rights, Federal environmental legislation, and the fish and wildlife management objectives of the confederated Tribes of the Warm Springs Indian Reservation (Tribes), and the State of Oregon. In addition to protecting and improving salmonid populations, these actions would also provide a sustainable Indian and non-Indian harvest of salmon and steelhead. The Tribes and the State of Oregon, Department of Fish and Wildlife, will be cooperating agencies and will participate in the development of the EIS. This action may involve floodplain and wetlands located in Hood River County, Oregon.

In accordance with DOE regulations for compliance with floodplain and wetlands environmental review requirements (10 CFR Part 1022), BPA will prepare a floodplain and wetlands assessment and will perform this proposed action in a manner so as to avoid or minimize potential harm to or within the affected floodplain and wetlands. The assessment and a floodplain statement of findings will be included in the EIS being prepared for the proposed project in accordance with NEPA.

**DATES:** BPA has established a 45-day scoping period during which affected landowners, concerned citizens, special interest groups, local governments, and any other interested parties are invited to comment on the scope of the proposed EIS. Scoping will help BPA ensure that a full range of issues related to this proposal is addressed in the EIS, and also will identify significant or potentially significant impacts that may result from the proposed project. Written comments are due to the address below no later than May 21, 1995.

Comments may also be made at an open house technical scoping meeting for Federal, State and interested parties on April 11, 1995, at the Bonneville Power Administration, 905 NE 11th, Room 106, Portland, Oregon, from 1:00 PM to 3:00 PM; an open house public scoping meeting on April 12, 1995, at the Yaucoma Buildings, 902 Wasco, Hood River, Oregon, from 6:30 pm to 8:30 pm; and an open house scoping

meeting on April 13, 1995, at the Warm Springs Community Center, Social Hall, 2200 Hollywood Blvd., Warm Springs, Oregon, from 6:00 pm to 8:00 pm. Written information also will be available, and BPA staff will answer questions and accept oral and written comments.

When completed, the Draft EIS will be circulated for review and comment, and BPA will hold public comment meetings for the Draft EIS. BPA will consider and respond to comments received on the Draft EIS in the Final EIS.

**ADDRESSES:** BPA invites comments and suggestions on the proposed scope of the Draft EIS. Send comment letters and requests to be placed on the project mailing list to the Public Involvement and Information Manager, Bonneville Power Administration-CKP, PO Box 12999, Portland, Oregon 97212. The phone number of the Public Involvement and Information Office is 503-230-3478 in Portland; toll-free 1-800-622-4519 outside of Portland.

**FOR FURTHER INFORMATION CONTACT:** Tom Morse-EWN, Bonneville Power Administration, PO Box 3621, Portland, Oregon, 97208-3621, phone number 503-230-3694, fax number 503-230-4564.

#### SUPPLEMENTARY INFORMATION

##### Proposed Action

BPA proposes to initiate actions to protect, enhance, and mitigate fish resources in the Hood River basin impacted by the construction and operation of Columbia River hydroelectric projects as defined by section 7.4L2 of the 1994 Columbia River Basin Fish and Wildlife Program in accordance with the Pacific Northwest Electric Power Planning and Conservation Act of 1980.

##### Specific Goals of the Project Are

1. Re-establish a spring chinook population in the Hood River Basin.
2. Improve native winter and summer steelhead populations in the Hood River Basin.
3. Achieve goals 1 and 2 in a manner that protects and improves, where practicable, habitat for other aquatic and terrestrial species in the Hood River Basin.
4. Contribute to tribal and non-tribal fisheries, ocean fisheries, and the Northwest Power Planning Council's interim goal of doubling salmon runs.

##### Alternatives Proposed for Consideration

Most alternatives would use one or more of the following mitigation techniques:

(1) A hatchery program (continued planting of hatchery reared fish in a stream to provide harvest opportunities).

(2) A supplementation program (use of hatchery reared fish to maintain or increase natural production of target species where it is inadequate to meet management objectives, while protecting system diversity and genetic character of all populations).

(3) Habitat improvement (alteration of existing habitat to improve its ability to support fish).

Alternative #1: Re-establish, or re-build naturally sustaining anadromous salmonid runs in the Hood River Basin via a combination of hatchery (see #1 above), supplementation (see #2 above), and habitat improvement actions (see #3 above) that can provide Indian and non-Indian harvest of fish.

Alternative #2: Re-establish, or re-build and sustain populations of anadromous salmonids in the Hood River Basin via a hatchery program that can provide Indian and non-Indian harvest of fish.

Alternative #3: Re-establish, or re-build and sustain populations of anadromous salmonids in the Hood River Basin via a supplementation program that can provide Indian and non-Indian harvest of fish.

Alternative #4: Re-establish, or re-build and sustain populations of anadromous salmonids in the Hood River Basin via a program of habitat improvements that can provide Indian and non-Indian harvest of fish.

Alternative #5: No Action.

##### Identification of Environmental Issues

The following issues have been identified to be addressed in this EIS:

1. Effectiveness of different fish management techniques.
  - A. Supplementation and hatchery protocols.
  - B. Use of out-of-basin stocks.
  - C. Wild versus hatchery stocks.
  - D. Disease prevention.
2. Effects on other species in Hood River Basin.
3. Effects on endangered species in Columbia and Hood River Basins.
4. Ability to measure program effects.
5. Indian cultural and treaty concerns.

Maps and further information are available from BPA at the address above.

Issued in Portland, Oregon, on March 27, 1995.

**Sue Hickey,**  
Chief Operating Officer.

## Federal Energy Regulatory Commission

[Docket No. ER93-568-000, et al.]

### Consolidated Edison Company of New York, Inc., et al.; Electric Rate and Corporate Regulation Filings

March 27, 1995.

Take notice that the following filings have been made with the Commission:

#### 1. Consolidated Edison Company of New York, Inc.

[Docket No. ER93-568-000]

Take notice that on February 27, 1995, Consolidated Edison Company of New York, Inc. (Con Edison), tendered for filing additional information concerning two agreements for the interconnection and delivery of energy between the JFK Cogeneration Project and the JFK International Airport.

Con Edison states that a copy of this filing has been served by mail upon KJAC Partners and the Port Authority of New York and New Jersey.

*Comment date:* April 10, 1995, in accordance with Standard Paragraph E at the end of this notice.

#### 2. Boston Edison Company

[Docket No. ER94-1135-000]

Take notice that on March 6, 1995, Boston Edison Company tendered for filing an amendment in the above-referenced docket.

*Comment date:* April 10, 1995, in accordance with Standard Paragraph E at the end of this notice.

#### 3. Union Electric Company

[Docket No. ER95-744-000]

Take notice that on March 15, 1995, Union Electric Company (UE), tendered for filing an Agreement dated March 10, 1995, between UE and the City of Sikeston, Missouri. UE asserts that the Agreement provides for the sale of Maintenance Energy by UE to the Department of Municipal Utilities, Sikeston, Missouri for the period March 17, 1995 to April 14, 1995.

*Comment date:* April 11, 1995, in accordance with Standard Paragraph E at the end of this notice.

#### 4. Power Smart, Inc.

[Docket No. ER95-751-000]

Take notice that on March 15, 1995, Power Smart, Inc. (PSI) tendered for filing a Petition for Waivers, Blanket Approvals, Disclaimer of Jurisdiction and Order Approving Rate Schedule. PSI requests approval of its initial rate schedule, to be effective as soon as possible.
